For your own health benefit we ask you to please indicate your blood type. AAP administers a voluntary Rh Negative Blood Donor List and works in cooperation with other private and government organizations in sourcing blood in cases of emergency – as well as in some “pre-need” cases (such as elective surgery). **Rh negative blood is extremely rare in the Philippines**, so if you are Rh negative it is imperative that you register your blood type with AAP – and we ask you to consider being a volunteer donor. Your donation could make the difference between life and death. **It could save your own life.**
